Great laptop for a great price! 11/03/2010

"This is a really nice and sleek laptop and what's even better is: THE PRICE! You can't find quality laptops at this price (\$499/before tax) these days! I like how the laptop isn't glossy around the keyboard and sides like most HP's....which would be easy to scratch. It's pretty light compared to majority laptops I've had, it's pretty silent....excellent clarity on the screen, really durable keyboard. Pretty decent hard-drive space **320GB, AMD Athlon II Dual-Core M300 Processor, 3gigs of RAM, 15.6" Screen, Windows 7 (32-bit), etc.** It has a couple "bells & whistles" that you would see more in the higher end laptops like: A Multi-in-one memory card reader, Multi-recorder DVD drive...to name a few. Overall, a great laptop for an affordable price!"
